

Grills, Post-Mount, Heavy-Duty, 300-Sq. In. Grate Size

Stand 34" high (after installation); permanently mounted to a 2.375" O.D. pipe base (20"-wide grills are mounted on a 3.5" O.D. pipe). Ideal for picnic areas or parks. Combine heavy construction with functional design for years of service. 3/16" plate steel. 4-level cooking grate has burnproof spring coil handles. Grate can be tipped out of the way for easy fire building and to facilitate cleaning, but it is not removable. Swivel mechanism allows continuous rotation in either direction. Unit rotates 360°. 2 draft holes in back of unit provide even burning of wood or charcoal. High-heat black enamel finish.

Park Grills, Large, Stationary, 20" x 8.25" x 14"

Sturdy grills have firebox of 3/16" steel with 1/2" round grill bars. Grills swivel 360 degrees and tilt back for easy fire building and ash removal. Grills can't be removed from firebox. Nontoxic, rust-resistant black enamel finish. All models have a locking device to prevent theft. Choose a grill for permanent mounting or a handy portable style. Permanently mounted grills have 42"-high, 2.5"-dia., 11-gauge steel post. Portable grills have 24"-high post welded to a 16"-sq., 3/16"-thick steel platform. Two sizes available. Small Grill has 224 sq. in. of cooking space.
